MATANG BERHAD (1142377-X)
SUMMARY OF KEY MATTERS DISCUSSED AT THE FOURTH ANNUAL GENERAL MEETING
HELD ON 27 NOVEMBER 2018

- 4.3 The Chairman informed that under the Companies Act 2016 (“the Act”), the Audited Financial Statements were required to be laid before the Company’s AGM and was not an item requiring a resolution to be put to vote. The Audited Financial Statements for the Financial Year Ended 30 June 2018, together with the Reports of the Directors and Auditors thereon, were tabled to the Meeting for discussion.
- 4.4 The Chairman then invited questions relating to the financial statements from the floor. A few shareholders/proxies had raised various questions and the Chairman, together with the Directors and the Chief Operating Officer cum Chief Financial Officer, had addressed the questions raised accordingly, as summarized below:-
- 4.5 There being no other questions asked, the Chairman declared that the audited financial statements for the financial ended 30 June 2018 have, in accordance with the Act, been properly laid and received.

Questions/ Issues raised:

- Matang had recorded good results for the last financial year despite the drop in crude palm oil (“CPO”) prices, which was in contrast to the financial results recorded in the past.
- Concern on the current Board size of nine (9) Directors and a suggestion that the number of Directors be reduced.
- The Pahang land deal, which was announced by the Company on 18 July 2017, was considered over-priced. It was proposed that the Company consider acquiring land in Malacca instead, as it is nearer to Matang Estate.
- Suggestion for Matang Group to change its external auditors to a “big four” audit firm.
- As most of the other plantation companies were not doing well in 2018, whether the Company could still be profitable moving forward.
- Plan for non-core lands, one (1) of which had a remaining lease of 13 years.
- Expansion plan of the Company and whether it would also look into other types of plantation besides oil palm.
- Diversification into other business that could be carried out within the Company’s estates such as centralized pig farming.
- The Pahang land deal and the capital expenditures allocated for the replanting exercise.
- The Board size and a comment that the number of Directors should be minimized to reduce costs in order to increase rewards to shareholders.

Replies:

- The profit and achievement recorded in the last financial year, which was considered a bumper year, was partially due to the age profile of oil palm trees in Matang Estate, with high number of trees in prime age for producing fruits. The increased production was also contributed by the biological factors of land, cyclical effect, experienced estate management as well as good weather.
- For the proposed purchase of land in Pahang for expansion, the purchase price would depend on the timing of purchase and also on the vendor,

**MATANG BERHAD (1142377-X)

hence it was not appropriate to benchmark the purchase price to other land deals against Matang's offer price. The Board would take note of the suggestion to consider Malacca lands.

- The current auditors of the Group are qualified audit practitioners in the market and that their re-appointment was approved by shareholders in the previous AGM.
- Generally, plantation companies in the country were doing well in 2017. The Company's yield in the previous year was comparable with that of the industry. It was not possible for the Board to predict whether the Company would continue to achieve good results for the forthcoming years. The Management had implemented measures to increase productivity and the trees in Matang Estate had a diverse age profile. Overall the yield of Matang Estate was expected to be sustainable in the long term. The Group's profitability would also depend on CPO prices and there was market analysis which indicated an uptrend. Barring unforeseen circumstances, the Company was expecting positive results for the forthcoming financial year.
- The Company would actively pursuing the extension of lease for its investment property in Larkin, subject to the State Government's approval. There was a proposal to develop the land in Tangkak but due to the current subdued property market, the Company had decided to put on hold any development plan until better timing to implement its plan.
- The core business and expertise of the Company was in oil palm cultivation and that the Board was looking into plans and strategies for growth and expansion. Management would consider other businesses provided that they had detailed market studies and experts' help before embarking on any new business venture. The Board would take note of the proposal on pig farming business but would for now maintain its presence in oil palm business.
- The vendor for the Pahang land was engaged in certain legal issues with other shareholders and that the success of the deal would depend on the outcome of the legal case. For the time being the Company had to put on hold the said proposal. On the funding for replantation, a portion of the proceeds from the Company's Initial Public Offering had been allocated for replanting exercises. Once the allocation was depleted, the Company would continue to carry out the exercises via internally generated funds.
- The Board would take note of the comments relating to the number of Directors and would discuss it in due course.

**5. ORDINARY RESOLUTION 1
PAYMENT OF A FIRST AND FINAL SINGLE-TIER DIVIDEND OF 0.20 SEN PER
ORDINARY SHARE FOR THE FINANCIAL YEAR ENDED 30 JUNE 2018**

The Chairman proceeded with the second item of the agenda of AGM which was to approve the payment of a first and final single tier dividend of 0.2 sen per ordinary share for the financial year ended 30 June 2018.

**MATANG BERHAD (1142377-X)
SUMMARY OF KEY MATTERS DISCUSSED AT THE FOURTH ANNUAL GENERAL MEETING
HELD ON 27 NOVEMBER 2018**

Questions/ Issues raised:

- Share price of the Company had dropped since its listing, despite profits being recorded.
- Proposal for the Board to declare a special dividend to compensate shareholders for the dropped share price instead of using the Company's cash to purchase expensive estates.
- Dividend policy.

Replies:

- Share price movement was in tandem with overall market sentiment and the drop in share price was not unique to Matang. The Company had only been listed for less than two (2) years and was on a growth path. Hence it would be preferable for the Company to preserve its cash for future plans without increasing its gearing by borrowing to acquire assets.
- The Company disagreed to the comment that the Directors were utilizing the Company's cash to purchase expensive estates, as Directors had fiduciary duties and were guided by strict guidelines by the regulatory bodies to run the Company professionally.
- There was no fixed dividend policy in place for the time being and that the dividend yield was considered decent.
